

MOORE AGAIN HEADS WATERWAYS ASS'N

Mayor's Re-election Without Opposition to Take Place This Afternoon

MEET AT NORFOLK IN 1923

Special Dispatch to Evening Public Ledger
 Portland, Me., Sept. 15.—J. Hampton Moore, Mayor of Philadelphia, will be re-elected president of the Atlantic Deepwaterways Association for the fifteenth time when the convention here draws to a close today.

This was indicated today when the Nominating Committee placed his name before the convention. There was no opposition and it was evident that the election would be by acclamation.

The Mayor and his wife leave Portland late today for Philadelphia by motor. They plan to reach home Monday.

Mr. Moore was highly pleased with the results of the Portland convention.

As was expected, the Nominating Committee today put the names of William H. Schoff, secretary-treasurer, and Dorell Shuster, assistant secretary, before the convention for re-election.

Albrecht A Delegate at Large

Emil P. Albrecht, president of the Philadelphia Bourse, was nominated as delegate-at-large; J. S. W. Holton, president of the Maritime Exchange, of Philadelphia, as State vice delegate; and William E. Bernard as delegate. There was no opposition to their election.

Norfolk, Va., will be the meeting place in 1923. For the first time the fight between contending cities for the convention was carried upon the floor of the convention. Usually the committee decision is accepted without question, but Newark, N. J., had made such a declaration to abide by a G to 4 committee vote and asked that the convention itself decide. Norfolk won with a big majority.

The convention today adopted a resolution that read:

"That the pollution of our interior waters and the water along our ocean front by the escape or dumping of refuse and other oils from ships and other sources has become a menace to the attraction of our beaches and has resulted in the destruction of edible fish. In addition it constitutes a fire hazard and militates against the public health.

Urge International Conference

"Such conditions have become so general as to demand a national and international consideration. We commend the resolution by Congress providing for an international conference on all pollution in waters beyond the three-mile limit.

"We earnestly commend to the consideration of Congress the passage of the pending bill introduced by Congressman Appleby, of New Jersey, which is intended to regulate and prevent further pollution of our waters."

The convention also called upon Congress to construct a waterway across New Jersey of a minimum depth of twelve feet.

"The Delaware River, upon which is located the great city of Philadelphia and the cities of Camden and Trenton, has been characterized as the busiest river in the United States," the resolution said.

"The construction of a waterway connecting this river with the Hudson and New York Bays, thus providing a short route and an easy passage between the Delaware River and New York City would unquestionably develop a large commerce."

70,000 FORD EMPLOYEES WAITING ORDER TO QUIT

Unless Auto Manufacturer Cancels Announcement Detroit Plant Will Close Tomorrow

Detroit, Sept. 15.—(By A. P.)—In response to a question concerning conflicting rumors with regard to the closing of the Ford motor plants here tomorrow, F. G. Liebold, personal secretary of Henry Ford, today issued the following statement:

"Mr. Ford's statement of several weeks ago that all plants would close on September 15 still stands, I believe. He has made no statement to the contrary and if he has any new plans he surely will issue a new statement."

Asked concerning reports that 90,000 men were discharged last night, the secretary declared he had no knowledge of such an action.

The 70,000 employees of the company in the Detroit district went to work today, hoping a last-minute statement from Mr. Ford would keep them on the job.

Mr. Liebold said this morning there was no change in the coal situation so far as the Ford company was concerned, but intimated Mr. Ford might make a statement later in the day that would quiet rumors regarding closing of his plants.

CHALIAPINE WILL SING IN U. S. FOR \$4500 A NIGHT

Russian Baritone to Get More Than Caruso Received

London, Sept. 15.—A contract for fifteen appearances, in the roles of Boris Godunoff, Prince Igor and Mephistopheles, with the Metropolitan Opera Company of New York, at a price per performance of \$1,200 above the \$200 a night paid Enrico Caruso, is said to have been signed by Theodor Chaliapine, the Russian baritone, who reached London yesterday.

M. Chaliapine, who is sailing for the United States on either 25, will make forty concert appearances in addition to his open engagements in a stay of several months in America. As on previous occasions, the singer is traveling with the permission of the Soviet Government and, according to his own story, he consented to his going because his "artistic soul could not get enough nourishment in Russia."

One thing, he said, his stay in Russia did not enable him, for lack of proper nourishment, to reduce his weight so that he lost enough of his circumference to appear as Mephistopheles without being greeted with giggles.

BOND IN VALENTINO SUIT

To Prevent Film Star From Breaking Contract

New York, Sept. 15.—The National Surety Company yesterday filed a bond for \$10,000 on an undertaking in injunction proceedings in behalf of the Famous Players-Lasky Corporation in their suit against Rudolph Valentino, to prevent his breaking a contract with the company which does not expire until February, 1923.

Justice Byrne approved the bond and signed a temporary restraining order with an order to show cause pending hearing on the application. The order is returnable Monday.

WON'T BE CHAPLIN'S BRIDE

MISS LILA LEE

Florida, O., Sept. 15.—(By A. P.)—Denial that she is going to marry Charlie Chaplin, the film comedian, was made by Miss Lila Lee, film star, here yesterday. Miss Lee stopped off here for a brief visit to her sister.

"Charlie Chaplin and I marry?" Miss Lee said when asked if newspaper rumors to that effect were true. "No, we are not going to be married. In fact, I don't think Mr. Chaplin will ever marry again."

WOMAN VAGRANT SET FREE

"Unfortunate Marriage" Cause of Musician's Downfall

New York, Sept. 15.—A woman vagrant, arrested while sleeping in a doorway in Greenwich Village two weeks

ago, was disclosed yesterday as Mrs. Olette Calva-Bina, member of a wealthy family and once a talented musician.

When she was released yesterday a well-dressed woman took her away. "An unfortunate marriage," it is said, was responsible for her condition.

Our Annual Advance Sale of Furs

Offers Ten Fur Groups, Special For Saturday, at Most Notable Price Reductions to Induce You to Purchase Tomorrow

Every item in this advertisement has been very specially priced for Tomorrow, Saturday's selling—every coat, every cape, every wrap, every choker, every scarf, every stole—each a most remarkable value, in order to induce you to purchase tomorrow.

The values offered tomorrow are made possible because we purchased our skins for cash last Spring when skin prices were at least thirty per cent. lower than right now. We manufactured these skins in our own workrooms, thus saving you the unnecessary middleman's profits. Tomorrow, in addition to the saving of the middleman's profits you can save an extra one-third off the usual winter prices.

A Small Deposit Will Reserve your Purchase in our Storage Vault until Required. Storage Free.

Repairing and Remodeling done now at 1-3 Off Winter Price—Pay for Work, When Delivered.

SENTIMENTS OF THE SONS OF THE FOUNDERS

We Serve Faithfully Because We Are Faithfully Served

We, the sons of the founders, are glad to make public acknowledgment of the loyalty of our employes, co-workers in the service of the public.

Especially do we recognize the faithful assistance of those who served under the tutelage of our fathers, in maintaining the principles, prestige and personality of this Store. Notable among these is—

Herbert J. Tily, General Manager

—Who entered the employ of the firm when a small boy, more than forty years ago. Through keen perception, studious habits and constant application, he advanced steadily. In early manhood his initiative became a recognized factor in the progress of the business. For nearly twenty years he has been General Manager; and to-day, in the vigorous, prime of life, is regarded as a leader among American merchants, an authority on modern mercantile principles and practice. He has found time, withal, to develop the cultural side of life—a student of the arts, an amateur musician of ability, a devotee of health-giving sports, a public-spirited citizen.
